Orlo Glide 200

Robot vacuum for hard floors and carpets, with pet hair mode

★★★★★ 4.7 out of 5 (1,284 ratings)

US$279.00

In stock. Free delivery by Thursday.

- Pet hair mode boosts suction on rugs
- Bristle main brush and two side brushes
- Up to 130 minutes per charge
- App with maps, schedules, and no-go zones

About this item

The Orlo Glide 200 cleans hard floors and carpets with 3,000 Pa of suction. Pet hair mode raises the suction automatically when it detects a rug. Laser navigation maps every room, so you can send it to one room from the app. It returns to its charging dock when the battery runs low.

Specifications

AI-generated review summary

Customers love how quietly and thoroughly the Orlo Glide 200 cleans, and praise its mapping and app. Most say it handles hard floors well. A few customers mention issues with hair.

Reviews (most helpful first)

★★★★★ **Best thing I've bought this year**

Jen K. | Reviewed December 28, 2026 | Verified purchase | Owned 2 weeks

Set up in ten minutes. Maps the whole downstairs and cleans while I'm at work. Our floors have never looked better.

★★★★★ **Quiet and smart**

Marcus T. | Reviewed December 15, 2026 | Verified purchase | Owned 1 month

Quieter than I expected, and the no-go zones mean it stays away from the kids' toys. Five stars.

★☆☆☆☆ **Hair wraps around the brush every single day**

Priya S. | Reviewed January 4, 2027 | Verified purchase | Owned 4 months

We have a golden retriever. The bristle brush gets wrapped in hair after every run and I have to cut it free with scissors. Pet hair mode doesn't help. Great on bare floors with no pets.

★★☆☆☆ **Side brush stopped spinning after 3 months**

Daniel O. | Reviewed January 6, 2027 | Verified purchase | Owned 3 months

Worked well at first. Then the side brush stopped turning. Support said hair had gotten into the motor and it isn't covered. Our two cats shed a lot.

★☆☆☆☆ **Same problem as everyone with a dog**

Lauren M. | Reviewed December 30, 2026 | Verified purchase | Owned 3 months

Brush clogged with dog hair constantly, then the side brush motor failed at about 12 weeks. Replacement part is US$39 and out of stock.

★★★★★ **Perfect for our apartment**

Sam R. | Reviewed November 22, 2026 | Verified purchase | Owned 6 months

Small apartment, hardwood floors, no pets. Does exactly what it says.

★★☆☆☆ **Fine until the hair problem**

Owen B. | Reviewed January 2, 2027 | Verified purchase | Owned 5 weeks

Clean results, good app. But with a husky in the house, I'm untangling the brush every day. Returning it.
